

# The JOHN MAXWELL Team

Speaking, Workshops & Seminars - Personalized & Tailored to Your Specific Needs!

Prior to any Speaking / Workshop / Seminar experience, I like to gather information from the event organizer through a quick questionnaire to help me deliver an appropriate message that will benefit all participants. I further invite the event organizer to a 10 minute interview in advance of the event for content alignment of delivery and presentation to audience needs / goals. Assurance is for your people to gain value and get something they can apply as soon as they walk away.
